

JAI MAHAL PALACE
JAIPUR

Set amidst 18 acres of beautifully landscaped Moghul gardens, Jai Mahal Palace is a repository of history suffused with legend. Built in the Indo Saracenic style of architecture in 1745 A.D., it hosts a large complex of regal rooms, charming colonnades and a garden with a tiered waterway that flows past grand stone pavilions into fountain pools. Jai Mahal Palace is located 14 kms. from the Airport, in the heart of the city, a breath away from the many historical monuments that make Jaipur, the capital of Rajasthan, so fascinating.

The city of Jaipur, poetry in pink, stone transcending time, rekindles the romance and mysticism of a bygone era of Rajputana. The Jai Mahal Palace has recently been refurbished with detail and care to offer guests the ultimate experience of tranquil and private luxury, in sharp contrast to the bustling city.

The exclusive experience of a royal lifestyle is complemented by the legendary Taj hospitality with a range of settings and royal dining experiences to remember. Savour the majestic heritage of the Jai Mahal Palace, specially designed to transport guests into a picture-book-past of unhurried elegance, luxury and comfort.
