

the guidelines issued by Food Safety & Standards Authority of India (FSSAI) an average active adult requires 2000 kcals of energy per day. However, the actual calories needed may vary per person.

Orient Express

The original Orient Express first ran on October 4, 1883 from Paris to Giurgiu in Romania, via Munich and Vienna. At Giurgiu, passengers were ferried across the Danube to Ruse in Bulgaria to pick up another train to Varna from where they completed their journey to Constantinople by ferry.

Over the years, many routes have changed and more services have been added, yet the timeless romance of the Orient Express remains the same. Join us aboard the Orient Express as we journey down its splendid and picturesque routes, savouring the finest of gastronomic experiences.

Bon Appetit.
